# No Shots Fired By Slain Offices, Declares State

## Theory That Guaderrama Fired At Is Eliminated

Question Is Raised Over Permitting the Jury to See Pictures of the Two Officers After Their Death; Boy Witness Makes Conflicting Statements Under Cross-examination.

HE theory that state ranger Scott while, afterwards going into the store.
Russell or deputy sheriff W. H. | Doors Closed: Then Shooting, Garlick fired at Juan Guaderrama before they were killed has been practically eliminated by the state, practically eliminated by the state. The state's witnesses thus far have testified that no bullet marks were to be found where Juan Guaderrama told them he had been sitting when fired on by the officers. resulted in the deaths of the two officers.

The defence raised strong objections
when the state Saturday morning
sought to introduce photographs of
Russell and Garlick, taken after the
two officers had been removed to an
undertaking establishment. The photo graphs showed the location of
wounds on both men and it was for
this purpose that the state wanted to
get them before the jury. The defence's contention was that the photographs would tend to inflame the
minds of the jurors and therefore
were prejudicial. Dr. L. G. Witherspoon, who was on the stand when
the state made the effort to introduce
the photographs, identified one.
